

Division of Environmental Quality
Monthly Air Pollution Control Program Summary Report

For All Regions - 10/16/2007 to 10/31/2007

Number of Complaints Received RE:

<i>Asbestos</i>	6
<i>Burning</i>	25
<i>Fugitive Dust</i>	4
<i>Odors</i>	45
<i>Particulate</i>	4
<i>Non-regulated</i>	0
<i>Toxics</i>	0
<i>Other</i>	2

Of the above, 4 complaints involved multiple emissions.

Total of Complaints Received:. 82

Number of Investigations of Complaints:

<i>Received during report period.</i>	20
<i>Received prior to report period.</i>	3

Total number of investigations completed: 23

Number of Sources:

<i>Non-Regulated.</i>	0
<i>In compliance with regulations.</i>	80
<i>In violation of regulations.</i>	2
<i>Referred to local air pollution agencies.</i>	0
<i>Referred to other DNR program.</i>	0
<i>Requiring follow-up surveillance.</i>	0

Number of formal notices of violation issued: 2

Monthly Air Pollution Control Program Detail Report

note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.

Dates Received or Inspected : 10/16/2007 though 10/31/2007

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
KCRO	10/17/2007	10/9/2007	Melissa Simpson	Odessa	Lafayette	Burning	Kevin Campbell, Odessa Fire	MRM	A2725
Comments	Mr. Michael Miller, an inspector with the Missouri Department of Natural Resources' Kansas City Regional Office (KCRO), issued Notice of Violation (NOV) #A2725KC to the reported party for open burning demolition waste.								
Comp. No.	KC0811858	Comp. Info	On October 8, 2007, at 8:35 p.m., the Odessa Fire and Rescue Protection District witnessed the reported party open burning a demolished garage.						
KCRO		10/16/2007	Donner	Missouri City	Clay	Burning	Cheryl Powers, Case Manager		
Comments									
Comp. No.	KC0811826	Comp. Info	The complainant stated the reported party burns materials from a trucking business. The burned materials included a gas tank and lots of metal. The burn pile is very large. The site is located along Water Street, next to a small park and consists of two trailers with a shop in between. The burn pile is across the driveway from the shop, before the railroad tracks. The burn pile is visible from the park.						
KCRO	10/18/2007	10/17/2007	Joe Terry	Rich Hill	Bates	Burning	Katrina Walton	RAV	
Comments	Mr. Richard Vani, an inspector with the KCRO, observed a small eight foot square burn pile consisting of plaster and two by four boards. The reported party denied conducting the burning and stated his sister, Evelyn, actually did the burning. Evelyn also denied starting the fire. Mr. Vani advised all parties not to burn and discussed the open burning regulations with them.								
Comp. No.	KC0811843	Comp. Info	The complainant stated the reported party (also the complainant's uncle) is dumping building material on her property and burning it.						
KCRO	10/22/2007	10/22/2007	Mayor of Breckenridge & a Council M	Breckenridge	Caldwell	Asbestos	Anonymous	ANS	
Comments	Ms. Adrienne Coppock, an inspector with the KCRO, noted that no violations occurred and informed the mayor of the demolition waste regulations. Ms. Coppock told the mayor the waste must go to a landfill (not burned or buried). The mayor will email Ms. Coppock the asbestos inspection report. The complainant will contact the department if the waste is burned or buried.								
Comp. No.	KC0811852	Comp. Info	The complainant stated on Saturday, October 20, 2007, the Mayor of Breckenridge and a council member demolished a downtown building. The complainant was concerned the asbestos was not removed from the building and the mayor and council member might burn the demolition debris.						
KCRO	10/23/2007	10/22/2007	Newco Manufacturing	Kansas City	Jackson	Asbestos	Anonymous	ANS	
Comments	Ms. Coppock referred the complaint to the Kansas City Health Department's Air Quality Section due to the reported party being located within city limits.								
Comp. No.	KC0811860	Comp. Info	The complainant stated the reported party dumped used machine oil and mineral spirits into a crack in the concrete floor on the back corner of the east wall in Plant #2. The complainant also stated, to their knowledge, this has gone on for 20 years. The employees are being told to dump the machine oil and mineral spirits into the crack by Mr. Frank McClure, the Vice President of Newco Manufacturing. The complainant believes the reported party replaced the roof of Plant #1 approximately two weeks before the date of the complaint. The roofing material may have contained asbestos. The complainant also believes the material removed from the roof had been removed from the site. The complainant does not know the name of the roofing company that replaced the roof.						

Monthly Air Pollution Control Program Detail Report

note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.

Dates Received or Inspected : 10/16/2007 though 10/31/2007

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
KCRO	10/24/2007	10/24/2007	Joe Terry	Rich Hill	Bates	Burning	Katrina Woolten	RAV	
Comments	Mr. Vani noted a previous investigation conducted on October 18, 2007, indicated the debris at 618 Spruce did not come from Mr. Joe Terry's building. Mr. Vani also spoke with the complainant's mother and Officer Clinton Leer. Mr. Vani advised all parties that open burning demolition debris is a violation of the state regulations.								
Comp. No.	KC0811877	Comp. Info	The complainant's uncle (the reported party) is demolishing commercial buildings and residential structures and burning the demolition debris (approximately five truck loads) on the complainant's property. A burn pile is visible from the road but back in a field that is not visible from the road is more demolition waste. The grass is very high so it may be difficult to get back to the pile. The most recent demolished building was located on 1st Street (across from the street from the grocery store). The building is still partially standing. This building used to be a restaurant and a flea market. The city, specifically Mr. Clinton Leer, a police officer among many other city roles, told some towns people it is okay to burn demolition debris.						
KCRO	10/31/2007	10/24/2007	South Side Ready Mix	Knob Noster	Johnson	Fugitive Dust	Lynn Collins	RAV	
Comments	Mr. Vani met with Ms. Terry Devasher, the facility owner's wife. The haul roads were not adequately watered. Mr. Vani advised Ms. Devasher to do a better job watering. The haul road watering records indicated the facility conducted daily watering with a ready mix truck. Mr. Vani observed extra baghouse filters on-site, which is a requirement of their construction permit. Mr. Vani recommended they extend the load-out chute to prevent dusty conditions when loading trucks with ready mix. At the time of Mr. Vani's investigation, dust was not going beyond property boundaries.								
Comp. No.	KC0811887	Comp. Info	The complainant stated the reported party's property is very dusty. When complainant is out in his yard he tastes the dust and can see it on his clothes. The dust is a big problem when trucks are being loaded with ready mix. The complainant has contacted the department in the past, most recently was approximately three months ago. The complainant has never observed a water truck at the facility.						
KCRO		10/25/2007	Ford Claycomo Assembly Plant	Claycomo	Clay	Odors	Anonymous		
Comments									
Comp. No.	KC0811862	Comp. Info	The complainant stated the reported party has a strong paint fume odor that is detectable in the nearby neighborhood. The neighborhoods are located south and west of the plant. The odor is most noticeable in the early afternoon or early evening and is an occasional event. The complainant detected the odor in an area near 54th and North Potter.						
KCRO		10/29/2007	John Lauhon	Garden City	Cass	Burning	Mark Lopez		
Comments	KCRO staff noted according to an interview with the local fire department's staff, the land owner admitted to intentionally burning the house. The local fire department staff will send a copy of their incident report to the KCRO.								
Comp. No.	KC0811874	Comp. Info	The complainant stated the land owner demolished a house by open burning. The fire resulted in damage to a neighbor's house. The local fire department responded to the incident.						
KCRO		10/29/2007	Lynn Byram/D & L Remodeling	Birmingham	Clay	Burning	Anonymous		
Comments									
Comp. No.	KC0811876	Comp. Info	The complainant stated the reported party operates a remodeling company and brings construction/demolition waste to their property and burns it. The complainant believes the burning occurs three to four times a week on the east side of the reported party's house.						

Monthly Air Pollution Control Program Detail Report

note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.

Dates Received or Inspected : 10/16/2007 though 10/31/2007

<i>Region</i>	<i>Inspection Date</i>	<i>Date Received</i>	<i>Suspected Source Owner/Operator</i>	<i>City</i>	<i>County Name</i>	<i>Type of Complaint</i>	<i>Complainant</i>	<i>Inspector Initials</i>	<i>NOV</i>
KCRO	10/30/2007	10/29/2007	Little Blue Valley Sewer District	Independence	Jackson	Odors	Wayne Wright	RAV	
Comments	Mr. Vani detected excess odors with the scentometer north of the primary clarifiers and issued Notice of Excess Emissions (NOEE) #A2864KC to the reported party.								
Comp. No.	KC0811879	Comp. Info	The complainant reported a sewer odor in his neighborhood south of the intersection of Blue Mills Road and Highway 24. Based on conversations the complainant had with others in the area, the odor is not an issue north of Highway 24 or further south on Blue Mills, down the hill. The complainant stated the odor occurs everyday approximately two to four times a day, but with no apparent pattern. The odor occurs with the most frequency between two and four in the afternoon. The complainant does not know the source, but believes it could be the Little Blue Valley Sewer District's Atherton Plant.						
KCRO		10/30/2007	U.S. Post Office	Kansas City	Jackson	Other	Anonymous		
Comments									
Comp. No.	KC0811875	Comp. Info	The complainant reported a semi truck that delivers mail backs in at a building, leaves the truck running and causes fumes to build up into the building. The building occupants are complaining of fumes.						
KCRO	11/9/2007	10/30/2007	Mr. Wendel Robbins	Albany	Gentry	Burning	Ms. Osborn	ANS	
Comments	Ms. Coppock sent an informational letter and fact sheet to both Mr. Wendell Robbins and Mr. Cecil Booher. Ms. Coppock informed the complainant of this action and asked her to contact the department if the burning continues.								
Comp. No.	KC0811878	Comp. Info	The complainant stated the reported party burns scrap material, tires and carpet and it is polluting the air.						
KCRO	10/31/2007	10/31/2007	Gibson Family LTD Partnership	Lees Summit	Jackson	Burning	Lone Jack Fire Department	ACB	
Comments	Mr. Aaron Bleibaum, an inspector with the KCRO, noted that based on the incident report submitted by the Lone Jack Fire Department, the open burning of tires, construction waste, pallets, demolition waste, and other non-household refuse occurred on the 150 acre farm owned by the reported party. The fire department and Mr. Bleibaum obtained photographic evidence. The contact person for the reported party is Mr. John Gibson. The disposal of these materials by means of open burning is a violation of the open burning regulations. Mr. Bleibaum issued NOV #A2780KC to the reported party.								
Comp. No.	KC0811886	Comp. Info	The Lone Jack Fire Department responded to a large fire on Lone Jack Lee's Summit Road, between Herring Road and old US Highway 50. The fire was in an open field on the south side of the road (across from the Lone Summit Ranch).						
NERO		10/16/2007	Joe Claypoole Construction	Macon	Macon	Asbestos	Kevin Howlett	DLK	
Comments									
Comp. No.	NE08255	Comp. Info	The complainant stated the reported used a bobcat with a blade welded to the bucket to remove two layers of floor tile covering approximately 31,000 square feet. The red nine by nine tile is under the old raised office and in front of the old deli on the bottom layer. The tile has all been removed but the complainant believes some is still in the dumpster behind the building. There is black mastic under the bottom layer of tile. The complainant questioned the contractor about the project prior to the removal and the contractor allegedly broke a tile and stated their were no fibers so it was not asbestos. The project is located at the former C&R Store, which is now the Save-A-Lot in Macon.						

Monthly Air Pollution Control Program Detail Report

note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.

Dates Received or Inspected : 10/16/2007 though 10/31/2007

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
NERO	10/16/2007	10/16/2007	PSF Valley View	Green City	Sullivan	Odors	Russell Alexander	SMB	
Comments	All complaints are logged and reviewed for development of an effective investigation strategy. Department staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant. The department did not conduct an on-site investigation at the time of the complaint.								
Comp. No.	NE08274	Comp. Info	On October 14, 2007, at 7:20 p.m., the complainant reported odors were very strong at his house. The winds were in the east. The smell was of pigs. The odors were ranked as a three on a scale from one to five with five representing the strongest odors.						
NERO	10/17/2007	10/17/2007	Mr. Gene Bolin	McGirk	Moniteau	Asbestos	Anonymous	DLK	
Comments	Mr. Don Kinkhorst, an inspector with the department's Northeast Regional Office (NERO), noted Mr. Jacob Cross, an inspector with the NERO's Solid Waste Unit, investigated the site on September 26, 2007. Mr. Cross contacted the Cole County Road and Bridge and requested they remove the siding from the roadside ditch. The Cole County Road and Bridge removed and disposed of the siding dumped in the roadside ditch. However, NERO staff have not determined the responsible party. Please refer to NE08179 for further details.								
Comp. No.	NE08257	Comp. Info	The complainant stated approximately one month prior to the complaint someone took asbestos siding and dumped it along the side of the road near McGirk. The complainant believes the contractor is responsible for dumping the waste. The complainant also believes the siding came from the back side of a house being remodeled on Highway 50. If so, the house is still being remodeled and additional siding is still left on the front of the house.						
NERO	10/19/2007	10/17/2007	Unknown	Knox City	Knox	Burning	Anonymous	DLK	
Comments	On October 18, 2007, the Missouri Division of Fire Safety Investigator, Mr. Ron McAfee, informed the department he is conducting an investigation of the fire. Mr. McAfee stated Mr. David Nelson is the General Contractor for the demolition. On October 19, 2007, Mr. Kinkhorst went to the site and observed the partially burned/partially demolished building. Mr. Kinkhorst met with Mr. Willie Katlin, Katlin's Construction. Mr. Katlin conducted the demolition as a subcontractor for Mr. David Nelson. Mr. Katlin stated they observed three figures near the demolition waste when the fire occurred. Mr. Kinkhorst met with Mr. Eric Tarpein, the property owner. Mr. Tarpein stated he is the owner of the property but Mr. David Nelson is the owner of the building. Mr. Tarpein believes the Huffman Family who own the adjacent building started the fire as they are currently in a property dispute. Mr. Tarpein also stated an asbestos inspection and removal have been conducted at the building. Mr. Tarpein told Mr. Kinkhorst that Mr. Nelson is going to bring a truck with a grapple to load the waste from the building for disposal. Mr. Kinkhorst confirmed an asbestos inspection was conducted and a notification for demolition was submitted to the department's Air Pollution Control Program (APCP). At the time of Mr. Kinkhorst's inspection, no parties admitted to setting the fire at the building. The Knox County Sheriff and Mr. McAfee continued to investigate the fire and will report if they find a responsible party. The responsible party for the fire was not determined at the time of the inspection.								
Comp. No.	NE08277	Comp. Info	The complainant reported a commercial building was partially demolished in Knox City. At approximately 3:00 a.m. on October 17, 2007, the building waste caught on fire. The Knox County Sheriff responded to the fire. The complainant believes the property is owned by Mr. Eric Tarpein. The people conducting the demolition are living in a travel trailer across from the demolition site.						
NERO		10/17/2007	Jeff Dodson	Novinger	Adair	Burning / Open Dumps	Anonymous	DLK	
Comments	Mr. Kinkhorst observed a new roof installed on half of a building on Frankfort Street in Novinger and on the residence located on Highway 149. Mr. Kinkhorst also observed demolition/construction waste dumped in a low area at the residence on Highway 149 and a burn pile containing construction waste directly behind the same residence. Mr. Kinkhorst was not able to gain access to the property.								
Comp. No.	NE08279	Comp. Info	The complainant stated the reported party burned shingles from a house approximately six months ago. The reported party also removed shingles from an old church in town on Frankfort Street. The complainant also stated the reported party supposedly takes the shingles to a landfill but returns with an empty truck approximately thirty minutes after leaving. The complainant believes the reported party took the shingles and dumped them on his family farm located on Highway D, north of Novinger.

Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.

Dates Received or Inspected : 10/16/2007 though 10/31/2007

<i>Region</i>	<i>Inspection Date</i>	<i>Date Received</i>	<i>Suspected Source Owner/Operator</i>	<i>City</i>	<i>County Name</i>	<i>Type of Complaint</i>	<i>Complainant</i>	<i>Inspector Initials</i>	<i>NOV</i>
NERO	10/19/2007	10/19/2007	Jason Plunkett	Confined Animal Feed	Emden	Marion	Odors	Carl Lancaster	SMB
Comments	Mr. Steve Boone, an inspector with the NERO, noted the state odor regulation does not apply to Confined Animal Feeding Operations (CAFOs) smaller than a Class 1A size. The Jason Plunkett facility is a Class 1C facility and smaller than a Class 1A size. Therefore, it is not subject to 10 CSR 10-3.090. The facility is not subject to odor rules for CAFOs.								
Comp. No.	NE08273	Comp. Info	The complainant stated on Saturday, October 13, 2007, and Sunday, October 14, 2007, odors were very bad from the reported party's hog confinement operation. The complainant is located a half to one mile north of where the land application took place on Friday, October 12, 2007, and Saturday, October 13, 2007. The complainant rated the odors on October 13, 2007, as a five on a scale from one to five with five representing the strongest odor.						
NERO		10/19/2007	Mark Judd		Princeton	Mercer	Burning	April Houk	DLK
Comments									
Comp. No.	NE08278	Comp. Info	The complainant stated the Woodward family, who owns the land across the road, hired the reported party to burn a brush pile containing asphalt shingles. The burn pile is giving off a lot of black smoke. The fire department has been contacted to put out the fire. The brush pile is on CRP land across from Route 3, Box 84, Princeton.						
NERO		10/29/2007	Farmers Concrete		Jefferson City	Cole	Odors	Iris Roberts	DLK
Comments									
Comp. No.	NE08289	Comp. Info	The complainant reported odors from the asphalt plant at Farmers Concrete have been bad at her house every time the wind is from the south. It is especially bad in the early mornings. The odors have been worse for the last one to two years. The odor is like burning asphalt.						
NERO		10/29/2007	Cadillac Bailey		Frankford	Pike	Burning	Jim Hansen	SMB
Comments									
Comp. No.	NE08292	Comp. Info	The Pike County Sheriff's office reported salvage burning on Friday, October 26, 2007, at the Bailey property near Frankford. The complainant stated two men from Vandalia were at the Bailey property burning insulation off of the copper wire. The pile of copper wire was approximately five feet tall. The burning took place on a rainy afternoon. The Sheriff's office has a license plate number of the Vandalia men that were conducting the burning.						
NERO		10/31/2007	Christensen Construction		Millersburg	Callaway	Odors	Anonymous	SMB
Comments									
Comp. No.	NE08295	Comp. Info	The complainant reported odors and smoke from the Christensen Asphalt plant were really been bad at her house located south of Interstate 70. The odors were especially bad on two days the week before she filed the complaint. The odors were bad all day and really choked her up.						

Monthly Air Pollution Control Program Detail Report

note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.

Dates Received or Inspected : 10/16/2007 though 10/31/2007

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
SERO	10/25/2007	10/1/2007	Lemons Landfill	Dexter	Stoddard	Odors	Ruth Ann Hoggard	JC	
Comments	Ms. Jan Chronister, an inspector with the department's Southeast Regional Office (SERO), did not observe any violations with the scentometer during the investigation. No further action is required at this time. Regional office staff will continue to monitor the facility when working in the area and when conducting on-site inspections and investigations.								
Comp. No.	SE08302	Comp. Info	The complainant reported the odor is bad.						
SERO		10/16/2007	City of Hayti Heights	Hayti	Pemiscot	Burning	Anonymous		
Comments									
Comp. No.	SE08297	Comp. Info	The complainant stated the reported party burned old homes, shingles, an old Church on Braggadocio Road, etc. and putting it all in holes and burying it all. The complainant believes the reported party did not conduct any asbestos inspections. The complainant indicated he did not want to make a report but the smoke was so bad it made it hard to breath. The complainant also believes T.J. Shelly, whom works for the city, is the one burning.						
SERO		10/18/2007	Bellview Valley Nursing Home	Caladonia	Iron	Odors	Anonymous		
Comments									
Comp. No.	SE08303	Comp. Info	The complainant stated the smell of the reported party's wastewater treatment facility is horrendous.						
SERO		10/25/2007	Dietzmans Construction	Fort Leonard Wood	Pulaski	Asbestos	Anonymous		
Comments									
Comp. No.	SE08318	Comp. Info	The complainant stated an old factory property was recently purchased and the reported party is demolishing the boilers on the property without using asbestos abatement practices.						
SERO		10/30/2007	Harold's Auto Salvage	Catron	New Madrid	Burning	Anonymous		
Comments									
Comp. No.	SE08334	Comp. Info	The complainant stated the reported party burns car parts.						
SERO		10/31/2007	Homeland Salvage	West Plains	Howell	Burning / Odors	Anonymous		
Comments									
Comp. No.	SE08337	Comp. Info	The complainant stated the reported party's burning is creating a lot of black smoke and smells like burning rubber or plastic.

note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.

Dates Received or Inspected : 10/16/2007 though 10/31/2007

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
SERO	11/1/2007	10/31/2007	Riverview Ranch	Bourbon	Crawford	Burning	Anonymous	MO1	
Comments	Ms. Michelle Oglesby, an inspector with the SERO, visited the site on November 1, 2007, and observed evidence at the location of the bon fire. Ms. Ahren admitted some of the "vendors" with the group of "cavers" at the campground burned some of their trash in the bon fire, however, Riverview Ranch did not give them permission to do so. Ms. Oglesby discovered evidence of glass and metal bands in the remains of the bon fire, which Ms. Ahren stated Riverview Ranch would have to clean up before the next camping season. Ms. Ahren showed Ms. Oglesby the location of the large dumpster located near the "office" building and large barrels located throughout the campground for customer use during the camping season. Ms. Oglesby did not observe any environmental concerns during the investigation. Ms. Oglesby requested Ms. Ahrens complete the Non-community Drinking Water Inventory forms and return them to the department. Ms. Ahrens requested copies of regulation definitions for what constitutes a public drinking water system, and Ms. Oglesby sent them to her on November 2, 2007.								
Comp. No.	SE08340	Comp. Info	The complainant observed one of the reported party's trucks back up to a bon fire on the campground and dump business waste (from trash containers on the campground) into the fire.						
SLRO	10/16/2007	10/15/2007	Hansen's Tree Service	O'Fallon	St. Charles	Odors	Ms. Sue Zarvos	TWS	
Comments									
Comp. No.	SL08177	Comp. Info	The complainant reported an objectionable odor from a tree mulching, cutting and storage operation.						
SLRO	10/18/2007	10/17/2007	Rich Stephens	Barnhart	Jefferson	Burning	Chief Glenn Nivens/Antonia FPD	KJA	3073
Comments	Mr. Kevin Arnold, an inspector with the department's St. Louis Regional Office (SLRO), issued NOV #3073 to the reported party for violation of regulation 10 CSR 10-5.070, "Open Burning Restrictions." Mr. Arnold sent copies of the inspection report and the NOV to the department's Solid Waste Unit in the Jefferson County Satellite Office for consideration of additional action on possible violation of county solid waste regulations.								
Comp. No.	SL08172	Comp. Info	The Antonia Fire Protection District's incident reports to the SLRO indicated the reported party unlawfully open burned miscellaneous wastes from the reported party's landscaping business at his residence. The fire district's initial response was August 13, 2006, and the second was on October 11, 2007.						
SLRO	10/17/2007	10/17/2007	Hansen's Tree Service	O'Fallon	St. Charles	Odors	Tom Braun	TWS	
Comments	Mr. Thomas Sims, an inspector with the SLRO, referred the facility to the APCP's Compliance/Enforcement Section. The SLRO is awaiting a response from the facility.								
Comp. No.	SL08215	Comp. Info	The complainant reported an objectionable rotten vegetation odor from a wood mulching operation.						
SLRO	10/30/2007	10/23/2007	Spudmaster Colossal Chips	Bellflower	Montgomery	Burning	James Wagner	KJA	
Comments	Mr. Arnold noted the facility representative appeared to be willing to voluntarily comply with all regulatory requirements. No further action necessary.								
Comp. No.	SL08198	Comp. Info	The complainant stated the reported party burned on a farm cardboard and other trade waste generated from the Colossal Potato Chip Factory in Bellflower. Department staff advised the complainant to contact the local fire department concerning the reported party burning too close to propane tanks and otherwise imperiled property.

Comp. No.	SL08199	Comp. Info	The complainant stated the reported party burned on a farm cardboard and other trade waste generated from the Colossal Potato Chip Factory in Bellflower. Department staff advised the complainant to contact the local fire department concerning the reported party burning too close to propane tanks and otherwise imperiled property.						
SLRO	11/8/2007	10/24/2007	Magruder Limestone Quarry	Troy	Lincoln	Fugitive Dust	Jim Rhodes	JEM	
Comments	Mr. John Mullen, an inspector with the SLRO, noted that based on the location of the blasting areas it appeared any particulates would have almost a mile to travel to leave the facility. The facility is abiding with the conditions of their various permits. Mr. Mullen believes that any problems would not be due to the blasting being done.								
Comp. No.	SL08210	Comp. Info	The complainant believes dust from the blasting at the quarry is traveling to the complainant's property. The complainant's records indicate he heard and felt blasts on September 10, 2007, September 24, 2007, October 10, 2007, and October 12, 2007. The complainant believes all of the blasts may have caused dust to travel to his property. The complainant indicated this has been an on going problem.

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
SWRO	10/29/2007	10/29/2007	A-Advanced Sandblasting & Welding	Nixa	Christian	Particulate / Fugitive Dust	Mike Edwards	MJG	
Comments	On October 29, 2007, at 11:15 a.m., Mr. Michael Grose, an inspector with the department's Southwest Regional Office (SWRO), arrived site. Initially, the facility was not blasting upon Mr. Grose's arrival. Mr. Grose observed dust visible on and off of the facility property. Various gravel lots were in the area. The facility began sandblasting at approximately 11:25 a.m. The west garage doors were open and heavy dust was billowing from the doors. The opacity was less than 40 percent. The wind was from the north and visible dust could be seen traveling across the adjoining rental space before leaving the north end of the property. The north wind allows the longest time before leaving the property. The east or west winds give shorter distance to the property boundary. Mr. Grose noted the facility is in violation of 10 CSR 10.6.170 and possible storm water regulations.								
Comp. No.	SW0811168	Comp. Info	The complainant reported a sandblasting company has airborne particles leaving the facility.						
SWRO		10/29/2007	MoArk	Neosho	Newton	Odors	Pete Boyt

Monthly Air Pollution Control Program Detail Report

note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.

Dates Received or Inspected : 11/1/2007 though 11/15/2007

<i>Region</i>	<i>Inspection Date</i>	<i>Date Received</i>	<i>Suspected Source Owner/Operator</i>	<i>City</i>	<i>County Name</i>	<i>Type of Complaint</i>	<i>Complainant</i>	<i>Inspector Initials</i>	<i>NOV</i>
KCRO	11/9/2007	10/30/2007	Mr. Wendel Robbins	Albany	Gentry	Burning	Ms. Osborn	ANS	
Comments	Ms. Coppock sent an informational letter and fact sheet to both Mr. Wendell Robbins and Mr. Cecil Booher. Ms. Coppock informed the complainant of this action and asked her to contact the department if the burning continues.								
Comp. No.	KC0811878	Comp. Info	The complainant stated the reported party burns scrap material, tires and carpet and it is polluting the air.						
KCRO	11/1/2007	11/1/2007	PARKWAY ESTATE/GRISHAM GRA	Blue Springs	Jackson	Burning	Nora Griffith	ACB	
Comments	Mr. Bleibaum noted the Parkway Estate Development is located North of Moreland School Road and on the East side of Adams Dairy Parkway. The land clearing and open burning of vegetation was contracted to Grisham Grading. Grisham Grading obtained an open burning permit (#08-092) for the disposal of vegetation. The department also issued an air curtain destructor permit to the contractor. Upon arrival to the site, Mr. Bleibaum detected visible smoke, however, the opacity was less than 20%. The air curtain destructor was being used in accordance to their permit. The black smoke event occurred during the morning hours on November 1, 2007. This was the result of cleaning out the burn pit. Brief smoke/ash events do occur when burn pits are cleaned out during start-up. Mr. Bleibaum requested Grisham Grading limit these events and to notify the department when they occur. Mr. Bleibaum did not issue any violations. Future site visits may be needed, as the contractor has been sited in the past for excessive smoke/ash.								
Comp. No.	KC0811885	Comp. Info	The complainant expressed concern over the burn permit issued to the reported party was possibly being used improperly and the neighbors were burning trees and limbs and other land clearing. The complainant believed the reported party previously had a burn permit. The reported party is conducting the burning above ground and too much black smoke was affecting the complainant's family health issues.						
KCRO	11/8/2007	11/2/2007	GIDGET ROBINSON	Warsaw	Benton	Burning / Open Dumps	Anonymous	ACB	A2781
Comments	Mr. Bleibaum conducted an open burning investigation at Gidget Robinson's property located at 24195 Docs Retreat Road in Warsaw. Upon Mr. Bleibaum's arrival, a burn pile was visible from the road. Debris was mixed with dirt. After interviewing the reported party, Mr. Bleibaum confirmed the burning of the demolition waste and its contents (furniture and refuse). Mr. Bleibaum informed the reported party of the open burning restrictions and requested her to cease all burning activity. The reported party understood the restrictions and stated she was unaware that burning demolition waste and furniture was a violation. Mr. Bleibaum issued NOV #A2781KC to the reported party for violating the open burning regulations.								
Comp. No.	KC0811882	Comp. Info	The complainant stated the reported party brings trailers to their property and "guts" them. The reported party then piles wood, carpet and other items and burns them.						
KCRO	11/5/2007	11/5/2007	SWYDEN CLEANERS	Kansas City	Jackson	Odors	Dodson	RAV	
Comments	Mr. Vani referred the complaint to the Kansas City Health Department's Air Quality Section for investigation.								
Comp. No.	KC0811883	Comp. Info	The complainant reported a bad smell coming from a cleaning business.						
KCRO	11/8/2007	11/7/2007	BEVERLY LIVING CENTER/WESTW	Blue Springs	Jackson	Asbestos	Nora Griffith	ACB	
Comments	Mr. Bleibaum noted The Beverly Living Center in Clinton was in the process of renovating the residential bathroom areas, therapy center, and resident rooms. The existing twelve by twelve floor tile was being overlaid with new twelve by twelve floor tile. The removal of the floor tile was not being conducted or planned. The facility was in compliance with the asbestos regulations and no compliance issues were noted.								
Comp. No.	KC0811888	Comp. Info	The complainant reported a local nursing home (Beverly Living Center) is conducting renovations, which includes replacing the floor tile.						

Monthly Air Pollution Control Program Detail Report

note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.

Dates Received or Inspected : 11/1/2007 though 11/15/2007

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
KCRO	11/9/2007	11/7/2007	ROCK QUARRY	Bates City	Lafayette	Fugitive Dust	Marsha Croney	MRM	
Comments	Mr. Miller was unable to document off-site dust the day of the inspection when the plant was not crushing.								
Comp. No.	KC0811914	Comp. Info	The complainant reported lots of dust and dirt in the air from the rock quarry operations near her home.						
KCRO	11/14/2007	11/9/2007	LAFARGE QUARRY/INDEPENDENC	Independence	Jackson	Fugitive Dust	Shirley Sloniker	RAV	
Comments	Mr. Vani observed dust from the reported party's stock piles was blowing off of the quarry property going across Kentucky Road. Mr. Vani issued NOEE #A2867KC.								
Comp. No.	KC0811908	Comp. Info	The complainant reported dust coming from the quarry. The complainant stated the dust was thick in the air on November 9, 2007, at 4:30 p.m. and was coming from LaFarge onto Highway 291 at Kentucky.						
KCRO	11/14/2007	11/13/2007	MARK CLARK	Mayview	Lafayette	Burning	Candy Corder	RAV	
Comments	Mr. Vani observed the burn pile, which mainly contained household refuse. Mr. Vani also observed a burned two by four, springs from upholstered furniture and particle board. Mr. Vani issued a Letter of Warning to the reported party.								
Comp. No.	KC0811919	Comp. Info	The complainant stated the reported party was burning Friday afternoon, November 9, 2007. The complainant noticed black smoke with strong odors, but no witness was on-site at the time of the fire. The complainant intends to file a complaint with the local police department.						
KCRO	11/14/2007	11/14/2007	Riley's Tire Service	Oregon	Holt	Burning	Anonymous	JHH	
Comments	Mr. James Helgason, an inspector with the KCRO, did not observe any violations of the state air regulations. Mr. Helgason mailed information on the effects of burning treated wood to the reported party.								
Comp. No.	KC0811922	Comp. Info	The complainant reported a yellowish smoke being emitted from the company smoke stack. The complainant believed the smoke was from the burning of tires due to the color of smoke and odor. The complainant stated this is a regular occurrence, mostly at night.						
KCRO	11/15/2007	11/14/2007	RILEY'S TIRE SERVICE	Oregon	Holt	Burning	Anonymous	ANS	
Comments	Ms. Coppock has been to the facility twice in the past for similar anonymous complaints. During both visits Ms. Coppock observed the reported party only burning untreated wood in their stove. Ms. Coppock contacted by telephone Mr. Michael Riley with Riley Tires. Mr. Riley stated the facility only burns wood in their stove, never tires or treated wood.								
Comp. No.	KC0811926	Comp. Info	The complainant reported a yellowish smoke being emitted from the facility's smoke stack. Due to the color of the smoke and the odor, the complainant believed the smoke is from the reported party burning tires. The complainant stated this is a regular occurrence, mostly at night.

Dates Received or Inspected : 11/1/2007 though 11/15/2007

<i>Region</i>	<i>Inspection Date</i>	<i>Date Received</i>	<i>Suspected Source Owner/Operator</i>	<i>City</i>	<i>County Name</i>	<i>Type of Complaint</i>	<i>Complainant</i>	<i>Inspector Initials</i>	<i>NOV</i>
NERO	11/1/2007	11/1/2007	PSF SOUTH MEADOWS/MOSELY 1	Browning	Sullivan	Odors	Regina Palmer	SMB	
Comments	Mr. Boone noted the winds were from the west northwest at four miles per hour for the time of the report, which was 9:38 a.m. on November 1, 2007, indicating that odors were likely coming from PSF South Meadows. The complainant contacted the department again at 10:00 a.m. to say that the odors were gone. The wind had switched directions. The odors from October 31, 2007, were likely from the Mosely Class 1C CAFO judging by the wind direction. Class 1C CAFOs are not subject to the odor regulation. Department staff will conduct an on-site investigation at a later date when conditions are predicted to be similar and present at the complainant's home.								
Comp. No.	NE08300	Comp. Info	The complainant filed the following report of odors from PSF South Meadows, "I am reporting foul hog farm odors for last night October 31, 2007, at approximately 9:00 p.m. I would rate the odor as a two increasing to a three by 11:00 p.m. The winds were slight and from the northwest. Also very strong foul hog farm odors are present now at 9:30 a.m. I would rate the odor as a four or more, it is strong. I noticed a slight foul odor inside my house and opened the door to check outside. It is rancid and the winds are still. Thanks. " Odors were ranked by the complainant on a scale from 1 to 5 with 5 representing the strongest odors. West and south of PSF South Meadows						
NERO	11/5/2007	11/5/2007	MOSELY CLASS 1C OR PSF SOUT	Browning	Sullivan	Odors	Regina Palmer	SMB	
Comments	An investigation will be conducted at a later date when conditions are similar to those noted by the report. Winds are out of the Northwest today, but winds are blowing too strong to make conditions good for checking for odors. It appears likely, from wind directions at the time of the report, that odors may have come from the Mosely Class 1C facility, which is not subject to the odor rules. Odors may have come from the PSF South Meadows facility also. No on-site investigation at this point. An investigation will be conducted later.								
Comp. No.	NE08306	Comp. Info	On November 3, 2007, at 11:25 a.m., the complainant filed the following report of odors from either the Mosely Class 1C CAFO or the PSF South Meadows Class 1A CAFO, "I am reporting foul hog farm odors this morning Saturday, November 3, 2007, starting at approximately 10:30 a.m. I would rate the odor as a two to three. It is now 11:17 a.m. and odors are starting to clear now. Winds are out of the northwest with a gentle breeze. We will be passing both farms on our way to Milan later, so until then I will not know if the odor was from venting or if one/both smells are constant." Odors were ranked by the complainant at a level between one and five with five representing the strongest odors.						
NERO	11/7/2007	11/6/2007	PSF PACKING PLANT	Milan	Sullivan	Odors	Anonymous	SMB	
Comments	Mr. Boone noticed odors on Highway 6 at the intersection of Business Route 5. Mr. Boone contacted Mr. Mike Keith with the PSF Packing Plant. Mr. Keith stated the facility is conducting trials on a new biological control system in their two scrubber systems that hopefully will reduce odor levels. Mr. Keith believes the rendering room scrubber is working well, but they are still adjusting the high intensity scrubber, which scrubs the discharge air from the cooking process. The high intensity scrubber is higher volume and has been more difficult to control. Mr. Boone asked Mr. Keith if there was a reason for the odors to be strong at the time of the report. Mr. Keith stated he could not find any upset at the plant or any other reason for the odors to have been strong at the time of the report. To the best of his knowledge, everything was working well. Mr. Keith believes the new system is capturing more of the fat oils and grease odors. They are adding a surfactant very similar to laundry detergent. To keep the ammonia in an ammonium form, the pH is kept down by feeding sulfuric acid. Mr. Boone did not conduct an on-site investigation at the time. The conditions alleged by the complainant occurred during the evening when department staff were not available. Mr. Boone noted a violation of the odor regulation may not be occurring at the present time.								
Comp. No.	NE08313	Comp. Info	At 5:53 p.m. on November 5, 2007, the complainant filed the following report of odors from the PSF Milan Pork Processing Plant, "This is an anonymous odor complaint on the Milan Packing Plant. At 5:53 p.m. by the Sinclair Station near Milan, the odor is just incredible. It is coming in my pickup with the windows shut. This is the typical packing plant odor that we have over here. It is a burnt hair and steam odor. The odor is gagging."

Comments									
Comp. No.	NE08327	Comp. Info On November 12, 2007 at 11:39 a.m., the complainant reported three brush piles burned by a farm hand. Each brush pile contained approximately ten tires. The local sheriff and fire departments were involved with the incident. The fire was located at 30344, East of Route Z and Highway 61.							
NERO	11/14/2007	11/14/2007	Unknown	Winigan	Sullivan	Odors	Regina Palmer	DLK	
Comments Mr. Kinkhorst noted the wind at the time of the report was out of the west northwest as reported by the complainant. The odor could have originated from PSF South Meadows Class 1A or Mosely Class 1C CAFO. All complaints are logged and reviewed for development of an effective investigation strategy. Department staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant.									
Comp. No.	NE08328	Comp. Info On November 14, 2007, at 2:14 p.m., the complainant filed the following report of odor via email: "I am reporting foul hog farm odors for today. I left my home at 9:00 a.m. with slight odors and returned at 1:10 p.m. and the odors were at a four. The winds were gusting strongly from the west northwest. The time is 2:15 p.m. and it is still at a smelly four." The complainant rated the odor on a scale from one to five, with five representing the strongest odors.							
NERO	11/14/2007	11/14/2007	ELMER HELMIG, JR.	Otterville	Cooper	Odors	Vernon & Sandy Lake	DLK	
Comments Mr. Kinkhorst noted the reported party's hog operation consists of 3600 finish hogs and is classified as a Class 1C CAFO. The reported party is exempt from 10 CSR 10-3.090, "Restriction of Emission of Odors."									
Comp. No.	NE08342	Comp. Info The complainant stated the reported party constructed two hog buildings. Recently the reported party began injecting liquid hog waste within 100 feet of the complainant's home. The smell was very bad on the first and third days with the prevailing south winds.

Dates Received or Inspected : 11/1/2007 though 11/15/2007

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
SERO	11/1/2007	10/31/2007	Riverview Ranch	Bourbon	Crawford	Burning	Anonymous	MO1	
Comments	Ms. Oglesby visited the site on November 1, 2007, and observed evidence at the location of the bon fire. Ms. Ahren admitted some of the "vendors" with the group of "cavers" at the campground burned some of their trash in the bon fire, however, Riverview Ranch did not give them permission to do so. Ms. Oglesby discovered evidence of glass and metal bands in the remains of the bon fire, which Ms. Ahren stated Riverview Ranch would have to clean up before the next camping season. Ms. Ahren showed Ms. Oglesby the location of the large dumpster located near the "office" building and large barrels located throughout the campground for customer use during the camping season. Ms. Oglesby did not observe any environmental concerns during the investigation. Ms. Oglesby requested Ms. Ahrens complete the Non-community Drinking Water Inventory forms and return them to the department. Ms. Ahrens requested copies of regulation definitions for what constitutes a public drinking water system, and Ms. Oglesby sent them to her on November 2, 2007.								
Comp. No.	SE08340	Comp. Info	The complainant observed one of the reported party's trucks back up to a bon fire on the campground and dump business waste (from trash containers on the campground) into the fire.						
SERO	11/1/2007	11/1/2007	DALE WANDS	Rolla	Phelps	Asbestos	John Cable	WS	WS20
Comments	Mr. Paul Jeffery, an inspector with the APCP, conducted an investigation at the request of Mr. Walt Shull, an inspector with the SERO, because of scheduling conflicts. The Property (known as Ramsey Building) was sold at an auction due to a bank foreclosure and was purchased by Mr. Dale Wands. Mr. Wands failed to obtain or determine if a building asbestos survey had been conducted prior to demolition activity. On September 5, 2007, an asbestos survey had been conducted by Triangle Environmental for the bank, but the information was not passed to the new owner. The previous survey indicated asbestos containing material (ACM) was present in the floor tiles on two of three floors and on the boiler in the basement. The demolition contractor began the tile removal with a mechanical chipper but went to hand tools (spud hoe and blades) quickly because of poor performance with the chipper. The amount of friable ACM on the boiler and expansion tank combined was less than 120 square feet as determined during the investigation. All floor tile and boiler ACM had been removed at the time of the investigation. Mr. Jack Delano removed the ACM from the boiler using a water hose to wet the material, which then fell to floor and was double bagged and placed into the construction roll-off trailer. When Mr. Jeffery questioned Mr. Delano about any formal training in asbestos removal, Mr. Delano stated he had been trained 20 years prior while working at Ft. Leonard Wood. Spartan Abatement Services had sent an abatement bid to Triangle Environmental dated September 7, 2007, but it was never passed to the new owner. It appeared to Mr. Jeffery that the project was less than a NESHAP threshold quantity for friable asbestos with violation only for failure to obtain an asbestos survey by owner/contractor. Mr. Shull sent an NOV to Mr. Dale Wands for failure to obtain an asbestos building survey prior to demolition activity in violation of 40 CFR Part 61, Subpart M, "National Emission Standards for Asbestos," as adopted by the state in 10 CSR 10-6.80 "Emission Standards for Hazardous Air Pollutants." It appeared that the removal of friable asbestos was less than the NESHAP threshold for a regulated project, and that only a small amount of the non-friable floor tiles may have been rendered friable during their removal.								
Comp. No.	SE08339	Comp. Info	Improper removal of asbestos floor tile and asbestos on the boiler.						
SERO		11/2/2007	CLAY WALLER	Cape Girardeau	Cape Girarde	Burning / Asbestos	Anonymous	NW	
Comments									
Comp. No.	SE08342	Comp. Info	The complainant stated the reported party buried a house containing asbestos and is building a house on top of the fill. The reported party also uses large tires to start fires to burn brush.

SERO	11/19/2007	11/9/2007	STAN SCHULTZ	Doniphan	Ripley	Burning	Ken Cochran	DRL	
Comments	The reported party cleaned the brush and a few trees from approximately three acres near the boat dock in Doniphan. The site will soon become an RV park. The contractor dug two holes and burned the wood waste in the holes. Mr. Lyons did not observe any houses in the area for several hundred yards, and the site is outside the city limits. The reported party did not request a burn permit. When Mr. Lyons contacted the contractor, he was finishing filling the burn holes. The project took approximately one week. Mr. Lyons referred the matter to SERO's Air Pollution Control Unit for a determination of violation.								
Comp. No.	SE08358	Comp. Info	The complainant stated the reported party cleared the woods to the left of the parking lot at the Riverfront Park in Doniphan (the walking track and the ball field behind the Police Department). The complainant also stated the reported party pushed big piles of trees and brush and they are burning it. The smoke is terrible. The complainant believes that due to the size of the trees and the dirt mixed in, that the fire will smolder and smoke for quite a while. The smoke is thick and very bothersome.

Comments	At 3:05 p.m. on November 8, 2007, Mr. Grose arrive site but did not observe any burning occurring during the visit. Mr. Grose left a business card and requested a return call. Mr. Grose did observe a burn barrel located in the center of the back yard and a new treated wood deck. At 4:00 p.m., Mr. Grose spoke with Mr. Paciorek, who stated he has never burned treated lumber. However, he recently conducted a controlled burn along his fence with the local fire department's supervision and approval.								
Comp. No.	SW0811202	Comp. Info	The complainant stated the reported party burned treated lumber and there was white smoke and a bad smell. The complainant also stated the reported party had a blower on the fire and was blowing ash and sparks onto the neighbor's house.						
SWRO		11/5/2007	Unknown	Carthage	Jasper	Odors	Carolyn Smith		
Comments									
Comp. No.	SW0811204	Comp. Info	The complainant reported odor issues resembling a dead animal smell. The complainant does not want a letter in regard to the investigation.

Comments									
Comp. No.	NE08345	Comp. Info The complainant reported odors when the wind is out of the northeast. The odor irritates the complainant's sinuses with a burning sensation.							
NERO		11/27/2007	CHRIS ROSS	Macon	Macon	Asbestos	Ryan Harris	SMB	
Comments									
Comp. No.	NE08351	Comp. Info The complainant reported RSW, LLC (doing business as Ross Construction) is remodeling the building at 123 Vine Street in Macon. The reported party pulled up nine inch by nine inch black and green floor tile.							
SERO	11/19/2007	11/9/2007	STAN SCHULTZ	Doniphan	Ripley	Burning	Ken Cochran	DRL	
Comments The reported party cleaned the brush and a few trees from approximately three acres near the boat dock in Doniphan. The site will soon become an RV park. The contractor dug two holes and burned the wood waste in the holes. Mr. Lyons did not observe any houses in the area for several hundred yards, and the site is outside the city limits. The reported party did not request a burn permit. When Mr. Lyons contacted the contractor, he was finishing filling the burn holes. The project took approximately one week. Mr. Lyons referred the matter to SERO's Air Pollution Control Unit for a determination of violation.									
Comp. No.	SE08358	Comp. Info The complainant stated the reported party cleared the woods to the left of the parking lot at the Riverfront Park in Doniphan (the walking track and the ball field behind the Police Department). The complainant also stated the reported party pushed big piles of trees and brush and they are burning it. The smoke is terrible. The complainant believes that due to the size of the trees and the dirt mixed in, that the fire will smolder and smoke for quite a while. The smoke is thick and very bothersome.							
SERO	11/19/2007	11/13/2007	DUNLAP SAWMILL	Boss	Dent	Fugitive Dust	Anonymous	JC	
Comments Ms. Chronister did not observe sawdust blowing from the sawmill. However, Ms. Chronister did observe sawdust on the complainant's property. Only one of the sawmills was operating during the investigation. It was impossible for Ms. Chronister to verify exactly where the sawdust came from. This issue will have to be observed during operation of both sawmills. Ms. Chronister informed the reported party they are responsible for keeping the dust from their operations on the property of origin. Ms. Chronister also discussed management practices with the owners of the sawmills. Ms. Chronister suggested the owners address the dust problems that could be occurring at the mills, such as additional gravel for the haul roads and replacing the sawdust trailer that was removed.									
Comp. No.	SE08360	Comp. Info The complainant reported dust from the sawmill was blowing off-site.							
SERO		11/16/2007	HOLLYWOOD STRICKLIN	Cherryville	Crawford	Burning	Marsha Martin		
Comments									
Comp. No.	SE08365	Comp. Info The complainant stated the reported party burned mobile home demolition waste for at least 24 hours on November 12, 2007. The complainant also stated the Crawford County Sheriff's Department (Deputy Coleman) responded to the incident.

Comp. No.	SW0811260		Comp. Info	The complainant stated the reported party burned leaves outside of a Zone A-1 area. The complainant does not know who owns the property but happened to pass by the property where the burning of leaves or brush was taking place.					
SWRO	11/16/2007	11/16/2007	RES	Carthage	Jasper	Odors	Ms. Teresa Orr	PFV	
Comments On November 16, 2007, four Missouri Air Conservation Commission commissioners, an APCP enforcement officer, an SWRO inspector, and Mr. Paul Vitzthum of the SWRO, toured RES and the Carthage area. Everyone noticed intermittent light odors from RES, but they were not able to obtain a seven to one dilution detection. Department staff will continue surveillance.									
Comp. No.	SW0811261		Comp. Info	The complainant reported odors from RES. The complainant stated as she returned from work and stepped out of her car, the odor from RES was overpowering.					
SWRO	11/16/2007	11/16/2007	RES	Carthage	Jasper	Odors	David Thron	PFV	
Comments On November 16, 2007, four Missouri Air Conservation Commission commissioners, an APCP enforcement officer, an SWRO inspector, and Mr. Paul Vitzthum of the SWRO, toured RES and the Carthage area. Everyone noticed intermittent light odors from RES, but they were not able to obtain a seven to one dilution detection. Department staff will continue surveillance.									
Comp. No.	SW0811262		Comp. Info	The complainant reported the RES plant odor was very strong. The odor was similar to burned hair, flesh and feathers. The complainant had just returned home from work and stated he is absolutely certain the odor was from the RES plant.					
SWRO	11/16/2007	11/16/2007	RES	Carthage	Jasper	Odors	Joe Voyd	PFV	
Comments On November 16, 2007, four Missouri Air Conservation Commission commissioners, an APCP enforcement officer, an SWRO inspector, and Mr. Paul Vitzthum of the SWRO, toured RES and the Carthage area. Everyone noticed intermittent light odors from RES, but they were not able to obtain a seven to one dilution detection. Department staff will continue surveillance.									
Comp. No.	SW0811264		Comp. Info	On November 16, 2007, the complainant reported a very strong odor from RES. The complainant believed it was one of the strongest odors he ever smelled. The complainant was certain the odor was from RES. The complainant lives approximately one to one and a half miles south southwest of the plant. The complainant first smelled the odor as he passed the golf course. The wind was from the north.

Dates Received or Inspected : 12/1/2007 though 12/15/2007

<i>Region</i>	<i>Inspection Date</i>	<i>Date Received</i>	<i>Suspected Source Owner/Operator</i>	<i>City</i>	<i>County Name</i>	<i>Type of Complaint</i>	<i>Complainant</i>	<i>Inspector Initials</i>	<i>NOV</i>
KCRO	12/14/2007	12/4/2007	HAYDITE PLANT/BUILDDEX	Dearborn	Platte	Fugitive Dust	Anonymous	ACB	
Comments	Mr. Bleibaum conducted surveillance at the Buildex plant on November 14, 2007. Mr. Bleibaum did not detect any visible emissions beyond the property boundary. KCRO staff will conduct a routine compliance inspection in the near future and will address all issues at that time, including the alleged activity stated in this complaint.								
Comp. No.	KC0811946	Comp. Info	The complainant stated the reported party (possibly also known as Buildex) is located near New Market and routinely blows out their stacks in the evening. The complainant believes the activity does not occur every evening but nearly weekly. When the facility blows out the stacks, a thick cloud of dust blows over the road and onto adjacent properties.						
KCRO	12/14/2007	12/13/2007	UNKNOWN	Independence	Jackson	Asbestos	Anonymous	RAV	
Comments	Mr. Vani's investigation disclosed that the residential building was less than four dwelling units and therefore exempt from the asbestos regulations. No one was on-site at the time of the investigation. The transite had already been removed and was in the dumpster.								
Comp. No.	KC0811954	Comp. Info	The complainant stated several kids are tearing off transite siding on an apartment building. The siding is breaking into small pieces, it may be friable. The complainant is concerned about their safety and health and the health and safety of others. The debris is falling onto a tarp and appears to have been hauled off before. The project is almost complete.						
NERO	12/26/2007	12/3/2007	SAM KREMER	Bonnots Mill	Osage	Burning / Other	Wes Bailey	DLK	
Comments	Mr. Kinkhorst did not find anyone at the reported party's residence at the time of the investigation and he did not observe any visible emissions coming from the outdoor wood furnace. Mr. Kinkhorst left contact information for the NERO and technical bulletins including Facts on Open Burning Under Missouri Regulations, Managing Residential Waste and Managing Construction and Demolition Waste at the reported party's residence. On January 3, 2008, Mr. Kremer contacted the NERO. At that time NERO staff informed Mr. Kremer that only vegetation and non-treated lumber can be burned in the outdoor wood furnace at his residence.								
Comp. No.	NE08364	Comp. Info	The complainant stated the reported party puts all kinds of things in an outdoor furnace (dead animal parts, rubbish, etc.).						
NERO		12/3/2007	JOHN SHAFFER	Shelbina	Shelby	Burning / Scrap Tire Dump	Anonymous	DLK	
Comments									
Comp. No.	NE08369	Comp. Info	The complainant stated the reported party previously told neighbors he would burn a pile of tires located on his property if he knew he would not get caught. On Friday, November 30, 2007, at approximately 9:00 p.m., the complainant observed large flames and dark black smoke coming from the direction of the reported party's property. The complainant believed the reported party and Mr. Brian Shuck are moving old cars back onto the property to start a salvage yard.						

Monthly Air Pollution Control Program Detail Report

note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.

Dates Received or Inspected : 12/1/2007 though 12/15/2007

<i>Region</i>	<i>Inspection Date</i>	<i>Date Received</i>	<i>Suspected Source Owner/Operator</i>	<i>City</i>	<i>County Name</i>	<i>Type of Complaint</i>	<i>Complainant</i>	<i>Inspector Initials</i>	<i>NOV</i>
NERO	12/10/2007	12/3/2007	MARSHALL HABILITATION CENTE	Marshall	Saline	Asbestos	Anonymous	SMB	
Comments	Mr. Boone conducted an environmental assistance visit with Mr. Barry Robb, the Facility Operations Manager at Marshall Habilitation Center. The project is under the NESHAPs threshold quantity of 160 square yards and is not regulated. Mr. Boone discussed with Mr. Robb recommended practices for removal of floor tile. Mr. Boone looked at the waste floor tile. It could not be crushed with hand pressure and was still in a non-friable state. Past inspections have found the floor tile to contain asbestos.								
Comp. No.	NE08380	Comp. Info	The complainant stated at the Marshall Habilitation Center floor tile was removed in a breezeway using hand methods and a heat gun, however, the tiles did not come up easily and the removal created a large amount of debris and dust. The workers were not using any ppe/water. The complainant believes an inspection was not conducted prior to the renovation, but the debris may be tested, as it is still on-site.						
NERO	12/4/2007	12/4/2007	LAWRENCE VASSEY/CLASS IC CA	Green Castle	Sullivan	Odors	Jean Conner	SMB	
Comments	Mr. Boone noted the Vassey facility has 7200 hogs in three barns and is smaller than a Class IA facility. It is not subject to the odor regulation. Mr. Boone did not conduct an on-site investigation for odors. The operation is not subject to the odor regulations because of its size.								
Comp. No.	NE08370	Comp. Info	The complainant stated odors from hog farms were so bad at her house she almost needed a mask every time she went outside. The complainant also stated they feel surrounded by the farms and odors are bad no matter what direction the winds are blowing. The odors are from the PSF Valley View and from the Lawrence Vassey farms. The complainant believes the odors are being carried up to five miles away. The complainant was very frustrated and stated cannot be hung outside and she is trapped indoors because of the odors. The complainant believes eight barns (2400 head/barn multiplied by eight barns equals 19,200 animals) are located on the Vassey farm and suggested the department check to make sure it is not really a Class IA facility.						
SERO	11/27/2007	12/3/2007	160 WEST SCRAP & SALVAGE	West Plains	Howell	Burning	Anonymous	DRL	
Comments	Mr. Lyons noted the property in question is owned by Mr. Joe Harris and has been previously investigated by the department. The smelter has a start-up cycle that creates a lot of smoke. The facility only runs the smelter a couple of days a week and they have to start-up each run cycle.								
Comp. No.	SE08396	Comp. Info	The complainant stated the reported party set up an incinerator and burns plastic and tires. The smoke and smell are terrible.						
SERO		12/3/2007	UNKNOWN SAWMILL	Willow Springs	Howell	Burning / Dust	Anonymous		
Comments									
Comp. No.	SE08398	Comp. Info	The complainant stated the reported party has several large piles of smoldering sawdust over a large area. The smoke is terrible and blows everywhere. There are three corrugated metal buildings at the location. There is a pallet factory east of the site but may have no connection to the sawdust piles.

Dates Received or Inspected : 12/1/2007 though 12/15/2007

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
SERO	12/12/2007	12/4/2007	TONY ROWE EXTERIORS	Rolla	Phelps	Open Dumps / Asbestos	Anonymous	MO1	
Comments	On December 12, 2007, Ms. Oglesby visited the site and spoke with Mr. Rowe of Tony Rowe Exteriors. Mr. Rowe informed Ms. Oglesby that the home will not be demolished. The reported party removed the front "porch" to construct a stable entrance way. Mr. Rowe also informed Ms. Oglesby the asbestos shingles/siding will not be removed but will be covered up with vinyl siding and replacement windows. Ms. Oglesby did not discover any environmental concerns at the location.								
Comp. No.	SE08400	Comp. Info	The complainant stated the reported party is tearing down a house that the complainant believes contains asbestos shingles. The complainant also believes the contractor plans to dump the debris on some property. The complainant stated they believe the contractor does not have any permits.						
SERO	12/6/2007	12/5/2007	STODDARD COUNTY COTTON CO	Bernie	Stoddard	Fugitive Dust	David Dirks	JC	
Comments	Ms. Chronister noted the facility exceeded their Construction Permit limits this season. Ms. Chronister issued a Letter of Warning and a NOEE to the facility.								
Comp. No.	SE08403	Comp. Info	The complainant stated the reported facility creating a lot of dust especially at night. The complainant observed a heavy dust cloud in the air on Monday, December 3, 2007, at approximately 11:00 p.m.						
SERO	12/7/2007	12/5/2007	ST. FRANCOIS COUNTY COURTHO	Farmington	St. Francois	Asbestos	Mr. Bryal Griffin, AF Environ.	TR	
Comments	Mr. Raney spoke with Mr. Paul Brockmiller and other employees of Brockmiller Construction, who stated Mr. Doug Benton took two samples of suspect ACM related to the wall system involved in the renovation. The results were negative. Mr. Raney also made contact with St. Francois County officials including the Maintenance Supervisor for the courthouse and reviewed documents submitted suggesting the boiler insulation was the only ACM in the courthouse and was removed in 1995. No further action is required at this time.								
Comp. No.	SE08409	Comp. Info	The complainant is concerned a renovation project at the St. Francois County Courthouse in Farmington may not be in compliance with the asbestos requirements.						
SERO	12/7/2007	12/7/2007	UNKNOWN	Miner	Scott	Burning	Anonymous	CJB	
Comments	Mr. Conrad "Joe" Blume, an inspector with the SERO, contacted personnel with the City of Miner Fire Department, who stated the house was to be used for smoke training and no burning would be done during the training. Mr. Blume did not observe any violations. No further action necessary.								
Comp. No.	SE08417	Comp. Info	The complainant stated the reported party burned two sheds. The complainant believes the reported party removed shingles from a roof and plans to burn and bury it all.						
SERO	12/7/2007	12/7/2007	CITY OF MINER	Miner	Scott	Burning	Anonymous	CJB	
Comments	Mr. Blume contacted personnel with the City of Miner Fire Department, who stated the house was to be used for smoke training and no burning would be done during the training. Mr. Blume did not observe any violations. No further action necessary.								
Comp. No.	SE08421	Comp. Info	The complainant stated the reported party burned two sheds. The complainant also stated a two-story home on the property had shingles removed and the complainant believed it appeared like the home was being prepped to burn.

Comments									
Comp. No.	SE08414	Comp. Info	The complainant stated the reported party burns during the night. The complainant can smell it and has ash on their vehicles.						
SERO	12/12/2007	12/12/2007	160 WEST SCRAP & SALVAGE	West Plains	Howell	Burning / Odors	Anonymous	CJB	
Comments									
Comp. No.	SE08419	Comp. Info	The complainant stated the smoke from a smelter at a junkyard is awful. The smoke smells like burning tires or plastic. The complainant also stated the smoke was so heavy a few days before the day of the complaint that it caused traffic on the highway to slow down. The complainant believed the reported party was burning the smelter on December 12, 2007, which caused a lot of smoke. The complainant could see a flame coming out of the smelter.						
SLRO	12/12/2007	12/11/2007	J H BERRA CONSTRUCTION	High Ridge	Jefferson	Particulate / Burning	Chuck Muehlhauser	PJD	
Comments Mr. Dwyer spoke with Mr. Dan Gerling of J H Berra via telephone on December 13, 2007, and notified him of the concern. Mr. Dwyer also suggested the burn pit location did not meet the distance requirement of more than 200 yards from the nearest inhabited dwelling and it needs to be relocated.									
Comp. No.	SL08250	Comp. Info	The complainant reported ash from an air curtain destructor operation is on the complainant's new deck. It has been a problem off and on for a week or so and the complainant believes the air curtain destructor may not be 600 feet away from the complainant.						
SLRO	12/12/2007	12/11/2007	THFS HIGH RIDGE DEVELOPMENT	High Ridge	Jefferson	Burning	Lee E. & Dawn M. Rouse	PJD	
Comments Mr. Dwyer spoke with Mr. Dan Gerling of J H Berra via telephone on December 13, 2007, and notified him of the concern. Mr. Dwyer also suggested the burn pit location did not meet the distance requirement of more than 200 yards from the nearest inhabited dwelling and it needs to be relocated.									
Comp. No.	SL08251	Comp. Info	The complainant stated ash from a burn pit at the Wal-Mart site is covering everything on the complainant's property. The complainant also stated other neighbors are complaining the ash is very bad. The complainant's wife stated the smoke from the burn pit was making driving difficult because it was so thick.						
SWRO	12/20/2007	12/3/2007	SIMON SQUARE DEVELOPMENT	Bolivar	Polk	Burning / Land Disturbance	Anonymous	CLR	
Comments On December 20, 2007, Mr. Craig Reichert, an inspector with the SWRO, noted the facility is permitted (MO-R108801) and has working BMP's in place. No violation.									
Comp. No.	SW0811331	Comp. Info	The complainant stated the reported party is clearing land and gathered a large pile of vegetative debris to burn. The city and county stated the reported party has not acquired any permits.

Comments									
Comp. No.	SW0811339	Comp. Info	The complainant reported odors from the Kenoma, LLC pig farm.						

Division of Environmental Quality
Monthly Air Pollution Control Program Summary Report

For All Regions - 12/16/2007 to 12/31/2007

Number of Complaints Received RE:

<i>Asbestos</i>	5
<i>Burning</i>	13
<i>Fugitive Dust</i>	1
<i>Odors</i>	12
<i>Particulate</i>	1
<i>Non-regulated</i>	0
<i>Toxics</i>	0
<i>Other</i>	3

Of the above, 5 complaints involved multiple emissions.

Total of Complaints Received:. 30

Number of Investigations of Complaints:

<i>Received during report period.</i>	22
<i>Received prior to report period.</i>	4

Total number of investigations completed: 26

Number of Sources:

<i>Non-Regulated.</i>	0
<i>In compliance with regulations.</i>	28
<i>In violation of regulations.</i>	2
<i>Referred to local air pollution agencies.</i>	0
<i>Referred to other DNR program.</i>	0
<i>Requiring follow-up surveillance.</i>	0

Number of formal notices of violation issued: 2

note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.

Dates Received or Inspected : 12/16/2007 though 12/31/2007

<i>Region</i>	<i>Inspection Date</i>	<i>Date Received</i>	<i>Suspected Source Owner/Operator</i>	<i>City</i>	<i>County Name</i>	<i>Type of Complaint</i>	<i>Complainant</i>	<i>Inspector Initials</i>	<i>NOV</i>
KCRO	12/18/2007	12/18/2007	UNKNOWN	Concordia	Lafayette	Other	Anonymous	MRM	
Comments	Mr. Miller noted possible CFC release from salvaging appliances and discussed the complaint with Ms. Lisa Hanlon with the EPA, Region VII. Mr. Miller referred the complaint to Ms. Natasha Hassiez, with the EPA.								
Comp. No.	KC0811960	Comp. Info	The complainant contacted the department for a relative. The relative's neighbor salvages old appliances including refrigerators and freezers in his back yard.						
KCRO	12/21/2007	12/21/2007	MR. FOSTER	Grandview	Jackson	Burning	Elaine Brewer	RAV	
Comments	Mr. Vani was not able to contact the reported party to advise him not to burn treated wood in the fireplace.								
Comp. No.	KC0811956	Comp. Info	The complainant stated the reported party (a member of the homeowner association) is burning treated wood in his fireplace.						
NERO	12/26/2007	12/3/2007	SAM KREMER	Bonnots Mill	Osage	Burning / Other	Wes Bailey	DLK	
Comments	Mr. Kinkhorst did not find anyone at the reported party's residence at the time of the investigation and he did not observe any visible emissions coming from the outdoor wood furnace. Mr. Kinkhorst left contact information for the NERO and technical bulletins including Facts on Open Burning Under Missouri Regulations, Managing Residential Waste and Managing Construction and Demolition Waste at the reported party's residence. On January 3, 2008, Mr. Kremer contacted the NERO. At that time NERO staff informed Mr. Kremer that only vegetation and non-treated lumber can be burned in the outdoor wood furnace at his residence.								
Comp. No.	NE08364	Comp. Info	The complainant stated the reported party puts all kinds of things in an outdoor furnace (dead animal parts, rubbish, etc.).						
NERO	12/19/2007	12/19/2007	PSF VALLEYVIEW/OTHER CAFOS	Green City	Sullivan	Odors	Rolf Christen	SMB	
Comments	Mr. Boone did not conduct an on-site investigation. All complaints are logged and reviewed for development of an effective investigation strategy. Department staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant.								
Comp. No.	NE08399	Comp. Info	At 3:45 p.m. on December 19, 2007, the complainant reported very strong odors at his house from 7:00 a.m. to 10:00 a.m. The complainant stated the odors were present the entire day. At noon the odors were light, but still present. At the time of the complaint the conditions were cloudy and foggy and the odors were strong. The winds were blowing from the south.						
NERO	12/21/2007	12/21/2007	G & C CONSTRUCTION	Shelbina	Shelby	Burning	Shelby County 911	DLK	
Comments	Mr. Boone spoke with the Shelbina Police Department. They will ask the fire department to extinguish the fire. The size of the burn pile is three feet high by 12 or 13 feet wide. Ms. Hopke will stop by on her way through Shelbina and take pictures of the burning and ask the police department to provide a report of the burning. Ms. Hopke met with Mr. Gene Mefford, the property owner and Mr. Chris Ehrenreich, the Shelbina police officer at the site. Mr. Mefford denied all knowledge of the fire at the site. The Shelbina Police Department could not determine the responsible party for the fire. Mr. Boone conducted an open burning and managing construction and demolition waste environmental assistance visit with Mr. Mefford.								
Comp. No.	NE08393	Comp. Info	The complainant stated shingles, hay and branches are burning at the reported party's property at 403 or 411 East Maple Street in Shelbina. The area residents reported burning stating it has been burning all day. The reported party may not be aware of rules about burning.						

Monthly Air Pollution Control Program Detail Report

note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.

Dates Received or Inspected : 12/16/2007 though 12/31/2007

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
NERO	12/21/2007	12/21/2007	CITY OF FULTON	Fulton	Callaway	Burning	Betty & Robert O'Neil	DLK	
Comments	Mr. Boone contacted J.C. Miller with the City of Fulton and also spoke with the Assistant City Administrator. They will put out the fire and will try to only conduct burning when the winds are blowing from a northerly direction. They stated the winds changed directions and resulted in smoke blowing toward the residential area. They had not added any brush since noon. Mr. Boone told them department staff will make a visit to the site the following week when in the area. Mr. Boone discussed the burn waiver signed by the department director allows the burning to take place as long as they are 200 yards from the nearest occupied structure and as long as the burning is approved by the fire department. Mr. Boone suggested they may want to do burning with an air curtain destructor. Open burning being conducted by the City of Fulton pursuant to Executive Order 07-36 and subsequent notice issued by the Director of the Missouri Department of Natural Resources. Mr. Boone asked the City of Fulton to consider local air quality, public health and safety, and neighborhood impacts prior to conducting further open burning at that site.								
Comp. No.	NE08394	Comp. Info	The complainant reported smoke from burning ice storm debris is in the complainant's house and outside. The fire appears to be just smoldering because the reported party burned green wood. The city is not doing anything about it. The complainant is especially concerned the burning will take place over the holidays. The complainant's other concern is because of the topography the smoke from the burn site tends to blow in the complainant's direction.						
SERO		12/18/2007	DONALD CARSON	Kennett	Dunklin	Burning	Adam Squires		
Comments									
Comp. No.	SE08426	Comp. Info	The complainant stated the reported party burned trash, carpet, shingles, appliances, and plastic. The reported party brought in a backhoe and the complainant believes the reported party is preparing to bury everything. The reported party tore the metal siding off a mobile home and the complainant believes the reported party will burn the remains.						
SERO	1/9/2008	12/18/2007	BUTCH BURROW	Malden	Dunklin	Burning	Anonymous	DRL	
Comments	Mr. Lyons noted the reported party tore down a house and is reusing the material. A small warming fire in a 55 gallon drum was keeping the workers warm. Mr. Lyons did not observe any other fire on-site.								
Comp. No.	SE08430	Comp. Info	The complainant stated the reported party burned material from a house being torn down.						
SERO	12/28/2007	12/19/2007	A-Z, INC.	Cape Girardeau	Cape Girarde	Asbestos	Frank, Nip Kelley Equip. Co.	TR	
Comments	Mr. Raney noted the demolition was approved as Demolition Project #2921-2007 on October 30, 2007. The asbestos building inspection was performed by Mr. Tom Nelson, CIH. Mr. Nelson works for Koehler Engineering in Cape Girardeau. Since the demolition occurred with the approval of the APCP, there is no violation.								
Comp. No.	SE08431	Comp. Info	The complainant stated the reported party is illegally tearing down a Hardee's in Cape Girardeau and he failed to get an asbestos assessment before beginning demolition. The complainant was informed that the reported party tried to take some of the remains to a landfill, but the landfill wouldn't take it because of the lack of an asbestos assessment.						
SERO	12/28/2007	12/19/2007	NORTH PACIFIC COMPANY	Van Buren	Carter	Particulate	Kathleen Logan Smith	JC	
Comments	Ms. Chronister noted the reported party uses a wood burning stove to heat the facility for the workers. This is exempt from the regulations. Ms. Chronister did not observe any violations.								
Comp. No.	SE08432	Comp. Info	The complainant reported black smoke coming from the south side of the North Pacific Facility.						

Monthly Air Pollution Control Program Detail Report

note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.

Dates Received or Inspected : 12/16/2007 though 12/31/2007

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
SERO	12/27/2007	12/21/2007	HERBERT PONATH	Irondale	Washington	Asbestos / Burning	Rita Beck	TR	TR01
Comments	Mr. Raney observed an area where open burning occurred and building demolitions had been conducted. Mr. Ponath stated he burned (or caused to be burned) rags, carpet, wood rafters, and wood floors, but not tires. Mr. Ponath stated that heavy equipment had been employed to push down the concrete block walls of the former school buildings. The auditorium had burned over the course of two days. The classroom building had burned for four days. No asbestos building inspections or notification had been made. Mr. Ponath stated the two buildings had been condemned by the City of Irondale for safety and structural reasons. Mr. Raney issued an NOV to the reported party.								
Comp. No.	SE08437	Comp. Info	The complainant stated the reported party burned material from three former school buildings.						
SERO	12/27/2007	12/26/2007	HERB PONATH	Irondale	Washington	Asbestos / Burning	Jerry Barton	TR	TR01
Comments	Mr. Raney observed an area where open burning occurred and building demolitions had been conducted. Mr. Ponath stated he burned (or caused to be burned) rags, carpet, wood rafters, and wood floors, but not tires. Mr. Ponath stated that heavy equipment had been employed to push down the concrete block walls of the former school buildings. The auditorium had burned over the course of two days. The classroom building had burned for four days. No asbestos building inspections or notification had been made. Mr. Ponath stated the two buildings had been condemned by the City of Irondale for safety and structural reasons. Mr. Raney issued an NOV to the reported party.								
Comp. No.	SE08445	Comp. Info	The complainant stated the reported party burned an old school building. The complainant believes the building contained asbestos.						
SERO	12/28/2007	12/27/2007	MCCLANAHAN REALTY	Cape Girardeau	Cape Girarde	Asbestos	Theresa Wren	TR	
Comments	Mr. Raney did not observe any violations at the time of the inspection. The materials had been cleaned up before Mr. Raney arrived on-site. The NESHAP's for asbestos Subpart M exempts single residential activity with non-friable asbestos such as a roofing project. However, Mr. Raney provided the reported party with asbestos guidance fact sheets and an asbestos building inspectors list to help educate those involved.								
Comp. No.	SE08444	Comp. Info	The complainant stated the contractors working for McClanahan's Realty (the owners of the rental property) tore an asbestos roof off of the rental property and left a huge mess. There is asbestos dust everywhere, asbestos shingles in the gutters, and the renters living at the property are disabled.						
SLRO	12/18/2007	12/18/2007	RIVERFRONT MINI MART/RECYCLI	Gasconade	Gasconade	Burning	Betty Larson	JAH1	
Comments									
Comp. No.	SL08238	Comp. Info	The complainant stated the reported party burned again. This is the third time the complainant has contacted the department concerning the reported party. The smoke is a noxious thick white smoke.						
SLRO	12/18/2007	12/18/2007	RIVERFRONT MINI MART & RECYC	Gasconade	Gasconade	Burning / Odors	Betty Larson	JAH1	
Comments									
Comp. No.	SL08240	Comp. Info	The complainant stated the reported party burns trash trade waste and possible wire/coating in a recently installed stove located inside the building. The burning is causing thick smoke and a strong odor that is annoying to the neighbors. The reported party claims the stove is being used for heat but the burning occurred throughout the summer.

Dates Received or Inspected : 12/16/2007 though 12/31/2007

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
SWRO	12/18/2007	12/4/2007	LAKE ASPHALT	Sunrise Beach	Camden	Odors	Devon Corliss	MJG	
Comments	On December 18, 2007, Mr. Grose did not detect any odor at a seven to one dilution. Regional office staff will perform routine surveillance when in the area. On December 19, 2007, Mr. Grose contacted the complainant for more details. The complainant told Mr. Grose she has trouble breathing due to sinus problems and the fumes aggravate her breathing trouble.								
Comp. No.	SW0811307	Comp. Info	The complainant reported (via voice mail) fumes from the asphalt operation were "really strong." The complainant also stated she usually notices an odor, but it was especially bad.						
SWRO	12/18/2007	12/5/2007	LAKE ASPHALT	Sunrise Beach	Camden	Odors	Ms. Jerry Landon	MJG	
Comments	On December 18, 2007, Mr. Grose did not detect any odor at a seven to one dilution. Regional office staff will perform routine surveillance when in the area.								
Comp. No.	SW0811317	Comp. Info	The complainant reported the smell from the asphalt plant was especially bad. The complainant stated the smell inside her house was very pungent and was similar to fuel oil. The complainant was worried about bringing her children into the home after school.						
SWRO	12/18/2007	12/17/2007	LAKE ASPHALT	Sunrise Beach	Camden	Odors	Jeri Landon	MJG	
Comments	On December 18, 2007, at 10:30 a.m., Mr. Grose arrived on-site. The wind was light and from the south, blowing towards Eddie Avenue. The plant was not producing asphalt but the asphalt heater was running. Mr. Grose observed a faint asphalt odor on Highway 5. The asphalt odor was stronger on Eddie Avenue but was not detectable at a seven to one dilution ratio. Mr. Grose spoke with the plant operator. Depending on weather, the facility expects to make asphalt later in the week. The plant manager will contact the department prior to production to assist scheduling a trip. No production expected until after the new year. Department staff will conduct routine surveillance.								
Comp. No.	SW0811345	Comp. Info	The complainant reported odor from Lake Asphalt.						
SWRO		12/17/2007	RES	Carthage	Jasper	Odors	Jeff Hodkin
